185mm (Wide) X 255mm (Deep)

1/4 FOLD MAGAZINE - (BLEED)

Finish size

Text Image Area

175mm (Wide) X 260mm (Deep)
185mm (Wide) X 260mm (Deep)
200mm (Wide) X 260mm (Deep)

155mm (Wide) X 240mm (Deep)
165mm (Wide) X 240mm (Deep)
180mm (Wide) X 240mm (Deep)

5mm bleed past finish trim size on Head, Foot & Foreedge.

NB: The reason that a full bleed 1/4 fold magazine has a smaller than standard finish trim size; is due to the 18mm Non-Image area at the grip edge of the plate. This area is lost in the plate clamp assembly. Bleed at Head & Foreedge can occur on the standard size 1/4 fold without a trim size reduction. But wherever bleed is required at the Foot, the smaller size will apply.

The above sizes are the most economical and best utilize maximum image area for the particular reel. Other sizes are available on special request but will not be as efficient. Point to remember- saddle stitcher can only trim a maximum of 20mm of Head & Foot on one pass.
